

2020 Aortic Highlights

Virtual Symposium

December 10, 2020 – Start at 18.00 CET

Chairmen: *Marco Di Eusanio and Michael Borger*

18:00-18:03 Welcome by the chairmen

Session 1

Improving patients' outcomes in aortic valve disease

18:03-18:05 Introduction by the chairmen

18:05-18:15 Should we replace or repair the aortic root in severe destructive aortic valve endocarditis with paravalvular abscesses: Long term results

Can Gollmann-Tepeköylü, Austria

18:15-18:25 Q&A and discussion

All

Session 2

A deep-dive into Aortic Regurgitation and its treatment

18:25-18:30 Introduction by the chairmen

18:30-18:40 Should we operate asymptomatic aortic regurgitation patient earlier?

Jean-Louis Vanoverschelde, Belgium

18:40-18:50 How to repair a regurgitant bicuspid aortic valve and when to replace the aortic root?

Michael Borger, Germany

18:50-19:05 Q&A and discussion

All

Session 3

Evidence decision-making for Patients

19:05-19:10 Introduction by the chairmen

19:10-19:20 The role of new bioprostheses in the young patient population

Bart Meuris, Belgium

19:20-19:30 Propensity matched long-term analysis of mechanical versus stentless Aortic Valve Replacement ≤ 60 years

Torsten Christ, Germany

19:30-19:40 Sutureless versus rapid deployment aortic valve replacement: results from the Sutureless and Rapid Deployment International Registry

Paolo Berretta, Italy

19:40-20:00 Q&A and discussion

All
